LinkedIn: <https://www.linkedin.com/in/haris-ali-0596a823a>

Career Objective

AI Web App Developer with hands-on experience in building generative AI-powered applications using LLMs and modern full-stack technologies. Passionate about innovation, continuous learning, and contributing to cutting-edge solutions in the IT industry.

Technical Skills

- Languages: JavaScript, Python
- Frontend: React, Next.js
- Backend: Node.js, Express, FastAPI
- Databases: MongoDB, MySQL, Supabase, Pinecone
- AI & ML: LLMs (OpenAI), Retrieval-Augmented Generation (RAG)
- Other: REST APIs, Git, Chrome Extensions

Professional Experience

Full-Stack AI Developer, NovaSoft - June 2024 - Present

- Leading development of AI-based web platforms using LLMs and vector databases.
- Developed Agent Dispatch:
 - Custom AI agent builder using RAG and OpenAI.
 - Next.js frontend + FastAPI backend integration.
- Built Auto Talent App:
 - AI-powered CV generator and LinkedIn job scraper.
 - Role-based quizzes for skills assessment.
- Created Interview Buddy:
 - Chrome extension providing AI-generated interview answers in real-time.

Web Development Intern, Appalo - June 2023 - August 2023

- Designed responsive web interfaces with React.js.
- Implemented dynamic UI components with JavaScript and jQuery.
- Optimized UX with improved layout and design.
- Added animations and interactive elements for engagement.

Haris Ali Wajid - CV
